Universität St.Gallen

Orchestrating Autonomous AI for Business Value

The Agentic Enterprise

Move beyond the hype of generative AI and prepare for the next frontier: systems that act. **The Agentic Enterprise** equips executives to orchestrate autonomous AI workforces that independently plan and execute complex business strategies. Focusing on governance, architecture, and ROI rather than code, this course provides the framework to integrate digital agents into your organization, fostering seamless human-AI collaboration that drives tangible business value.
